Be airborne from a civilian plane!

You will never experience the sky the same way again.

AN EXCITING AND FUN SKY EXPERIENCE

You will never experience the sky the same way again!

Jump from **4000m** (13.500ft) with our Pilatus Porter PC-6 (D-FCLG), which holds the world's height record of 13,485 meters.

In free-fall you are traveling for 50+ seconds **200 km/h** (124 mph), which equals 55 meters (164 feet) per second and feels like floating on an air cushion.

You will jump so close to the German-French border, that you might cross the border mid-flight (depending on wind conditions) multiple times.

Under a parachute there is a wonderfully calm and peaceful descent over the stunning view of the Southern Palatine Vista. FSC Südpfalz e.V. was established in 1974. Since then, skydivers and tandem guests have participated in a total of 222.000 jumps in the beautiful Schweighofen and Südpfalz area. This is equivalent to flying around the world 20 times! With their combined altitude, a total of 3.600+ hours were spent in free-fall. FSC Südpfalz is unique because we are the only skydivers to soar over the German-French border half a million times.

GETTING AIRBORNE FAST IS EASY

Jump on a Wednesday, on a Friday or on a weekend.

Just a reasonable car ride from your location you will find the small airfield of Schweighofen, a wonderfully chilled place in the picturesque southern Rhineland-Palatine, an area so beautiful that millions of people spend their holidays there. We are so close to the German-French border that skydivers often cross the border multiple times during a jump. Bring your friends, they'll enjoy the fun atmosphere and the welcoming crowd too, we have a restaurant on-site and a camping ground.

Simply go to www.fsc-suedpfalz.de/englisch, sign up for your tandem jump, pick a date, pay and you are ready to get airborne. Don't forget to ask for a video flyer for your jump. All military with a valid ID are eligible for a 10% discount on a tandem jump that includes a video flyer! [If you book the tandem plus the camera flyer you are eligible for a 10% special military discount on the jump fee, needs a valid US Forces I.D.]

OUR DROP ZONE IS USPA-ENDORSED

Get your USPA skydiving license in Germany.

Many consider their choice to become a skydiver their most important decision. Not only is skydiving a wonderful sport with a variety of great disciplines, it also changes people's outlook on life.

Should you choose to continue toward your civilian skydiving license our club is a fully-rated training facility by the United States Parachute Association (USPA). The drop zone is USPA-endorsed and capable of issuing U.S. parachuting licenses A through D. We have English-speaking staff on hand and have trained many U.S. Military, civilians and international skydivers. Most of our traveling visitors have chosen to make Schweighofen their home drop zone during their time in Europe.

Our skydiving club in Schweighofen has safely licensed many US-Personnel with the help of our English-speaking staff.
